

I enclose a small resume of our company profile, which I trust will be of interest to you.

M&M Medical has been established since March 1991, having had in excess of 20 years experience in the complete turnkey projects of Medical & Laboratory Gases.

To help us achieve our aim for total quality management, we obtained BS 5750 Registration in March 1992 (Reg. No FM20383), with subsequent updating to BS EN ISO 9001:1994 in accordance with QAS 3270.1/206 Issue2.

We updated this standard to BS EN ISO 9001: 2000 in March 2003.

We further updated this standard to BS EN ISO 9001: 2008 in Sept ember 2008.

With our need for continued expansion, we acquired Total Medical Ltd, a locally based medical gas contracting company in August 1999.

We also employ the expertise of Crownford Limited to fulfil all aspects applicable to Health and Safety etc.

Consequently the services to our customers are built on the ability to survey their needs inclusive of design, supply, installation, testing and commissioning of medical and laboratory systems.

M&M Medical specialise in the following, associated with Patient Care, Laboratory and Light Industrial Gaseous Installations: -

- Distribution Pipelines
- Medical Gas Terminal Units
- Line Valves
- Pendants
- Bedhead Units
- Medical Gas Cylinder Manifold Systems
- Medical Air Plants
- Surgical Air plants
- Vacuum Plants
- Anaesthetic Gas Scavenging Systems
- Medical Alarm Systems
- Laboratory Gas Installations
- Laboratory Gas Cylinder Manifolds
- Laboratory Gas Plant
- Laboratory Gas Terminal Units
- Surveying / Production of CAD Drawings for new and existing systems.

These installations / surveys meet the exacting requirements that are legislated, and particularly the latest safety requirements necessary in the usage of medical gaseous products i.e. Health Technical Memorandum HTM 02-01, (previously HTM 2022) and National Health Service Model Engineering Specifications C11.

Whilst specialising in laboratory and light industrial gaseous distribution pipeline systems M&M Medical adhere to the current British Compressed Gases Association (BCGA) Codes of Practice.

The installations we provide can be of a minor nature, or part of a major "green field" project, utilising both the experience, and the personnel to complete the task efficiently and professionally.

We have worked with many of the NHS & Private Hospital Trusts, M&E Contractors, and Consultants within the UK.

The principal products associated with our installation are:
Medical Gases i.e. Oxygen, Nitrous oxide, Entonox, Medical Air 4bar, Surgical Air, Vacuum, Anaesthetic Gas Scavenging.

Laboratory / Light Industrial i.e. atmospheric & combustible gases together with controlled gas mixtures for special processes, and gases for analytical use.

M&M Medical operate as a specialist contractor, direct or as a nominated sub-contractor to a principal contractor.

We are prepared to discuss with architects and consultants their client's requirements, including CAD as installed drawings if required.

Contractually we are conversant with many model contracts employed in industry and government, and the contract control this entails. As a company, we are able to offer our clients the safety of our resources with comprehensive insurance cover for indemnification.

MAINTENANCE

M&M Medical also offer a comprehensive planned preventive maintenance package for your Medical & Laboratory gas systems, including a 24-hour emergency call-out service 365 days a year.

We will devise a maintenance schedule particular to your requirements, which will eliminate sudden unpredictable breakdowns.

Our comprehensive stocks of equipment comprise materials manufactured by the following suppliers.

- Medaes
- Penlon East Healthcare
- Millennium Medical Products Ltd
- MEC Medical
- Shire Controls
- Gas-Arc Group
- Brownall
- Gas Control Systems (Murex)

We have selected a small quantity of our past and current Medical and Laboratory Gas Installations for your perusal.

Project Value (Up to £250,000)

Brighton General Hospital (new build)
Nuffield Hospital Basingstoke (new build)

Project Value (£500,000 - £1,000,000)

Ysbyty Ystrad Fawr (new build)
Great Ormond Street Hospital London
Prince Charles Hospital
Churchill Hospital, Oxford (new build)

Project Value (Exceeding £2,000,000)

Peterborough Hospital (new build)

Project Value (Exceeding £3,000,000)

Southmead Hospital Redevelopment Project

In January 2006, we moved to our Newly Built Bespoke 2000sqft Offices, 2000sqft Stores Area and 2000sqft Assembly Unit, where our dedicated team of specialists will continue to provide the expert service our customers have come to expect, and to assist in this service M&M Medical has a fleet of 21 vehicles. All assets being sole owned by the company.

Should you wish to inspect our Premises, or any of our Current or Completed Site Installations, we will be only too pleased to make the necessary arrangements with the designated Site Personnel or Hospital Engineers.

We trust the services offered by our company will be of assistance to you and would welcome the opportunity to submit our competitive prices for future tenders.

Thank you for taking the time to read about our company, and if we can be of any assistance please do not hesitate to contact us.

Yours faithfully,

A handwritten signature in black ink that reads "M. Tiffin".

Mike Tiffin
